

Payroll Software System

“The Payroll system is easy to learn and keeps track of employee information at a touch of my finger tips.

Searching for payroll data is never so easy. Many reports can help me and my boss can use it to check on information too!

Compliance with e-Submission allows us to Auto-include employment income to IRAS quickly. SystemGrafx’s assistance during the testing phase is very prompt as we only deal with 1 party. ”

Payroll Users

Overview

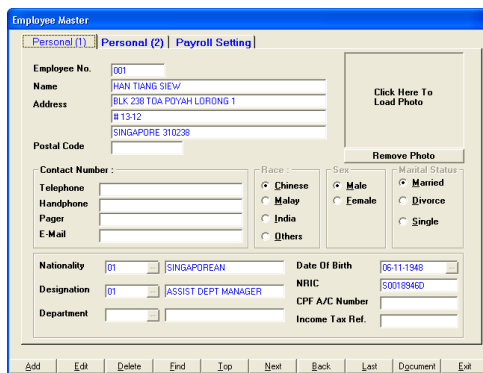

We understand that payroll is an important aspect of any business operations, computerising this area may seem to be an easy task if given the correct advice and guidance. We have engaged in numerous design improvement and change to enhance this software to be easy to use and maintain. Our design has built local legalisation changes in place for easy updates when this change affects the payroll system. With constant upgrading we always deliver best value software to our customers.

This application suite caters for small and medium size business to leverage immediately, quick implementation process can be accomplish with our technical proficiency without compromising for future upgrades and scalability. We monitor the execution and training progression to ensure our customers are fully comfortable with our software system. Providing enhancement and blending of the software into our customer environment seamlessly. Our commitment to develop and improve the standard version means that constant upgrades can be enjoyed by of customers.

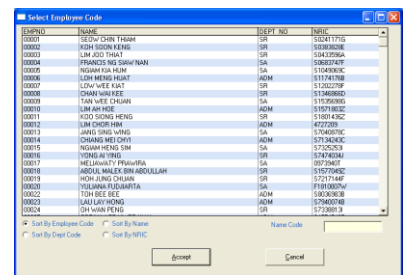

With constant changing economic condition, our government is very flexible in keep pace with the rules and regulation in relation to CPF and taxation. We maintain close links with agencies related to these changes and keep our customers’ software up to date with for coming changes.

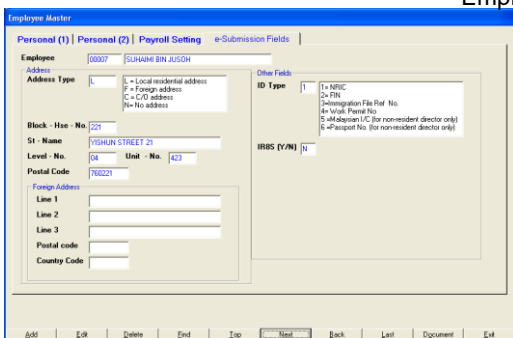

Easy update to Amend payroll data

Employee Master Files

Effective search routines

Employee IRAS e-Submission Fields

Table 1: Summary of CPF Tables for Singaporeans and 1st / 2nd year PRs. The table shows monthly contributions for different employee categories (e.g., Below 35 Year, Above 35 To 59 Year, Above 60 Year) and their respective employers.
